## SwimDesk

The UNSW YMCA Swim School will be introducing a new reporting system at the beginning of term 4. The new software is called SwimDesk. This software will enable us to better track the progress of our swimmers and more effectively communicate this progress with parents.

In order for the system to work effectively we need to ensure that we have the correct contact details for all students. Please fill out the update/confirmation of details form and return this form to reception or hand to the wet deck supervisor.

## Swim School Waitlist

The Swim School waitlist is used for times when we are unable to place a swimmer in their preferred class time or level. We will endeavour to move or upgrade swimmers throughout the term and parents are more than welcome to check on the status of the waitlist. At the end of the term we will re-start the waitlist, this means those still waiting must come to reception to ensure that we have the correct details for you.

## Keep Watch While at the Pool

UNSW Swim School would like to remind our members of the importance of keeping watch of your children whilst in our Centre. Children aged 0-5 years and non-swimmers must be within arm's reach of an adult at all times. Children aged 6-10 years require constant active adult supervision. Children aged 11-14 years must also be supervised by an adult. Parents, please note our Keep Watch policy is in place for the safety of all patrons using the facility. **We ask that parents supervise children at all times whilst swimming**
