Notes to and forming part of the financial statements For the year ended 31 December 2009

Note 1 Statement of Significant Accounting Policies

Basis of Preparation of Accounts

The financial report has been prepared in order to satisfy the reporting requirements under the constitution of the Young Men's Christian Association of Sydney. The financial report has been prepared on an accrual basis and is based on historical costs and do not take into account changing money values, or except where stated, current valuations of non-current assets. The accounting policies that have been adopted have been consistently applied unless otherwise stated.

The financial report covers The Young Men's Christian Association of Sydney as an individual entity. The Young Men's Christian Association of Sydney is incorporated in New South Wales under The Young Men's Christian Association of Sydney Incorporation Act 1906 as amended by The Young Men's Christian Association of Sydney Incorporation (Amendment) Act, 1976

The following is a summary of the material accounting policies adopted by the Association in the preparation of the financial statements.

Cash

For the purpose of the Statement of Cash Flows cash excludes interest-bearing deposits, as these deposits do not form part of the daily operating cash flows of the Association.

Investments

The Association's investment are stated at cost.

Inventories

Inventories are stated at the lower of cost and net realisable value.

Property, Plant and Equipment

Property, plant and equipment are carried at cost or fair value less, where applicable, any accumulated depreciation. The carrying value of property, plant and equipment is reviewed annually by the Association to ensure it is not in excess of the recoverable amount from those assets. The recoverable amount is assessed on the basis of the expected net cash flow, which will be received from the assets' employment and its subsequent disposal. The expected net cash flows have not been discounted to their present values in determining the recoverable amounts.

Depreciation on property, plant and equipment is calculated on a straight-line basis using rates that result in the cost of each item being written off over its useful life.

Financed Asset repayments have been expenses to the P&L with the asset to be reconised in the books once liability has been extinguished.

The depreciation rates used for each class of asset of depreciable assets are:

Depreciation Rate
20.0%
33.3%
10.0%
33.3%
33.3%
2.5%
